🛡 1. Overview   ⌄

Safe Surf is a Chrome extension designed to help users understand the privacy implications of websites they visit by analyzing privacy policies and terms of service pages. This Privacy Policy explains how Safe Surf handles data, user privacy, third-party services, and user rights in accordance with applicable laws including the Personal Information Protection and Electronic Documents Act (PIPEDA) in Canada.

🗄 2. Data We Collect   ⌃

Local Processing
Privacy policy text is processed locally in your browser

→

OpenAI API
Only policy text sent for summary generation

→

Safe Surf

Access Rights
Since we don't store personal data, there's no need to request access to your data. All processing happens locally in your browser.

Right to Erasure
Simply uninstall the extension to remove all local data. No server-side data deletion is necessary as we don't store any user data.

Control & Settings
Customize the extension's behavior through the settings panel, including AI analysis preferences and notification options.

6. Children's Privacy

⚠️ Safe Surf is not intended for use by children under the age of 13.

✓ We do not knowingly collect data from children

✓ Parents should supervise children's online activities

✓ Contact us immediately if you believe we have inadvertently collected data from a child

7. Data Security

Local Processing
Content analysis happens directly in your browser

API Security
Secure API key management with scoped access

CSP Headers
Content-Security-Policy enforced in extension manifest

Minimal Permissions
Only requests necessary permissions for core functionality

Best Practices Implementation

✓ Regular security audits and updates

✓ Secure communication protocols

✓ Data minimization principle

✓ Transparent privacy practices

8. Changes to This Policy

We may update this policy occasionally. Any changes will be reflected with a revised effective date at the top. Significant updates will be communicated via:
